

AbiliTrax Seat Pods

BY

FENTON

Made in the USA, an **AbiliTrax Seat Pod** resizes the standard AbiliTrax full floor modular track system into a stand alone single seat option offering FMVSS compliant individual aftermarket seating solutions for the Ford Transit, RAM ProMaster and Mercedes Sprinter Vans.

*Shown here enlaid into flooring

SECTION B
MGA TEST #Q18030 - C/FMVSS 207/210 FORWARD

The AbiliTrax Seat Pod has passed rigorous pull testing performed on multiple locations throughout the OEM chassis floor, pulled from both the seat base as well as lap and shoulder belt points, at a combined force of 7,000 lbs. to ensure full FMVSS compliance.

FENTON

Full compliance with FMVSS and it's regulations, as set forth under 49 USC 301, et. seq., can only be achieved through proper in-vehicle testing. FENTON AbiliTrax Seat Pods and Step-N-Lock Bases have successfully passed FMVSS testing wherein the following force was applied at one time: 3,000 lbs. to lap belt + 3000 lbs to shoulder belt + 20x the seat weight = for a total load that exceeds 7,000 lbs. Per testing requirements, this force was reached within 30 seconds and held for over 10 seconds.

CAM2LOCK

Selling Features:

- Most Cost Effective
- Offers additional upgraded seating options (Eleganza)
- Offers single and double seating
- Tool free latching mechanisms for ability to easily remove when needed.

Compatible With:

- Freedman 3PT
- Freedman GoES
- Freedman GoSeat
- Freedman Eleganza
